ABOUT US

Built Around People, Machines & Discipline

Company Profile

Based in Mumbai, VJ Enterprises delivers large-scale earthmoving and construction-support services with a focus on productivity, safety and dependable execution. Built around people, machines and project discipline, we combine skilled manpower, modern equipment and a collaborative approach to respond quickly to customer requirements and execute work safely.

"Our strength is the combination of people, machines and passion."

Safety-first practice on every VJ Enterprises site

Our Vision

To be recognized as a dependable excavation and earthmoving partner known for quality, safety, speed and long-term relationships with clients.

Our Mission

- Safe and timely completion of civil works
- Modern machinery with experienced operators
- Flexible, responsive service for customer needs
- Quality output with environmental responsibility

WHAT WE DO

Core Services & Fleet

Core Services

Mass Excavation & Earthmoving

Large-scale site cutting, grading and earthmoving for residential, SRA and industrial developments.

Building & Industrial Demolition

Controlled demolition of structures with debris management and site clearance.

Piling, Rock Revetment & Soil Improvement

Foundation-ready ground preparation including piling support and slope/rock revetment work.

Aggregate Crushing, Sieving & Supply

Processed aggregate production and supply, sized and sieved to project specification.

Fabrication Support & Equipment Rental

Machinery and fabrication support available on flexible rental terms for contractors and developers.
